The Value of Productive Conflict When Scaling Up

Business owners of growth firms that double in size every 3 to 5 years often yearn to be set free from three snares. When growing fast, they may find themselves either: Sucked into the friction and drama of daily operations; failing to get everyone on the same page; tolerating underperformance by their teams.

Mindful Leadership at Every Level When Scaling Up

Like many successful entrepreneurs, Bob Whitacre grew his company—Cornerstone Companies, a 30-year-old healthcare real estate firm—from plans on the back of napkins and a handful of people to a team that could handle the challenges of managing thousands of square feet of real estate.
